Summary

Passionate Frontend Developer and UI/UX Designer with a strong foundation in visual design, typography, and layout. Proven experience building scalable design systems in Figma and translating high-fidelity prototypes into dynamic, responsive interfaces using React.js and Tailwind CSS. Proficient in utilizing Figma components and auto layout to bridge the gap between creative brand campaigns and production-ready code in fast-paced environments.

Education

Chhattisgarh Swami Vivekanand Technical University

Bachelor of Technology in Information Technology

Aug. 2024 – May 2028

Chhattisgarh

Experience

Frontend Developer & UI/UX Design Intern

March 2026 – July 2026

BrainQuest

Remote

- Built and maintained reusable Figma template systems utilizing components and auto layout, enabling the marketing and design teams to quickly iterate on brand variations.
- Collaborated with product stakeholders to design and seamlessly translate UI/UX wireframes into functional, interactive web components, ensuring strict adherence to visual hierarchy and cross-browser compatibility.
- Conducted competitive visual research to iterate on creative concepts, optimizing component rendering logic to reduce page load times by 20% without compromising design quality.

Projects

Fizzi - 3D Animated Soda Brand Website | *Next.js, Three.js, GSAP, Prismic CMS* | [Live Link](#)

Aug 2026

- Engineered an immersive 3D product showcase using Next.js and Three.js (React Three Fiber), rendering interactive soda can models on HTML5 Canvas with scroll-driven animations powered by GSAP ScrollTrigger.
- Integrated Prismic CMS as a headless content layer, enabling dynamic content updates; implemented full SEO metadata with Open Graph and Twitter Card tags, reducing editorial turnaround time by 40%.
- Achieved 90+ Lighthouse Performance score by optimizing 3D asset loading with Next.js code splitting, maintaining smooth 60 FPS animations across 5+ interactive sections on mobile and desktop.

Spylt Clone - AWWWARDS Website Clone | *React.js, Tailwind CSS, GSAP* | [Live Link](#)

Aug 2026

- Developed a pixel-perfect clone of the AWWWARDS-featured Spylt website, replicating complex scroll-bound animations and dynamic flavor-based color transitions using GSAP ScrollTrigger across 5 sections.
- Implemented interactive product carousel with magnetic hover effects, infinite marquee tickers, and parallax text reveals, boosting average user session duration by an estimated 35%.
- Optimized responsive layouts across 320px–4K viewports with Tailwind CSS, achieving zero Cumulative Layout Shift (CLS) and consistent cross-browser rendering on Chrome, Safari, and Firefox.

GDG Peer Learning - Full-Stack Collaborative Platform | *React, Express, MongoDB, Monaco Editor* | [Live Link](#) **July 2026**

- Architected and deployed a full-stack peer learning platform for GDG on Cloud (GEC Bilaspur), enabling 50+ students to practice DSA with an integrated Monaco code editor supporting real-time syntax highlighting.
- Built RESTful APIs with Node.js and Express for authentication, problem management, and progress tracking; structured MongoDB schema to handle 500+ coding problems with O(1) lookup by category.
- Delivered a responsive, accessible UI with React, reducing onboarding friction by 30% through intuitive navigation and PWA-ready manifest configuration for offline access.

Technical Skills

Design: UI/UX Design, Figma (Components, Auto Layout), Wireframing, Prototyping, Design Systems, Typography, Layout

Languages: C++, JavaScript, TypeScript

Frontend: React.js, Next.js, Three.js, Tailwind CSS, GSAP

Backend: Node.js, Express.js, Prismic CMS

Databases: MongoDB, SQLITE, PostgreSQL, Prisma ORM

Tools: Docker, Git, Linux

Achievements & Leadership

DSA Lead | GDG - GEC Bilaspur (2025 – Present): Lead DSA sessions and mentor 50+ students in problem solving and algorithmic thinking.

NTPC Technical Competition 2025: Regional Finals, 3rd Place.

Symbiosis Skill Hackathon (SSH 26): Finalist in National level hackathon in Indore.

GDG TechSprint Hackathon 2026: 2nd Runner Up (Team Lead).

IIIT Naya Raipur E-Summit Hackathon 2026: National Finalist (Top 120 teams).

NHIDE National Hackathon 2026: National Finalist (Top 200 teams).
