Summary

Passionate frontend developer with a deep understanding of core JavaScript and proven experience building dynamic, responsive user interfaces using React.js and Tailwind CSS. Currently expanding technical expertise into backend and full-stack development with Node.js and Next.js. Backed by a strong foundation in Data Structures and Algorithms, bringing a highly disciplined and optimization-focused approach to building scalable web applications.

Education

Government Engineering College Bilaspur

Bachelor of Technology in Information Technology

Aug. 2024 – May 2028

Bilaspur, Chhattisgarh

Experience

Frontend Developer Intern

March 2026 – July 2026

BrainQuest

Remote

- Engineered responsive, dynamic user interfaces using React.js, optimizing component rendering logic to reduce average page load times by 20%.
- Collaborated with product stakeholders to translate UI/UX wireframes into functional, interactive web components, ensuring seamless cross-browser compatibility.
- Integrated RESTful APIs and implemented centralized state management, improving data flow efficiency and reducing client-side bug reports by 15%.

Projects

Spylt Clone - AWWWWARDS Website Clone | *React.js, Tailwind, GSAP* | [Live Link](#)

Aug 2026

- Developed a responsive clone of the AWWWWARDS-featured website Spylt from scratch, manually coding the entire component architecture.
- Implemented complex scroll animations and interactive frontend elements utilizing GSAP and Tailwind CSS.
- Optimized layout across mobile and tablet devices using CSS media queries and deployed the application via Vercel.

Chat-It - Real-Time Chat App | *React, Node.js, Express, Socket.io* | [Live Link](#)

March 2026

- Built a full-stack real-time communication platform enabling users to seamlessly join dedicated chat rooms and exchange instant messages.
- Engineered the backend API with Node.js and Express, integrating WebSockets via Socket.io for low-latency bidirectional data transfer.
- Designed a clean, minimalist user interface focusing on responsiveness and successfully deployed the production build on Render.

Interactive Personal Portfolio | *React, TypeScript, Tailwind CSS* | [Live Link](#)

Aug 2026

- Engineered a dynamic, Spider-Man-themed personal portfolio website to showcase technical web projects and UI/UX skills.
- Utilized TypeScript to ensure strict type safety, predictable state handling, and code scalability across the React component hierarchy.
- Integrated smooth UI animations and a fully functional dark/light mode toggle to enhance user accessibility and visual design.

Technical Skills

Languages: C++, JavaScript, TypeScript

Frontend: React.js, Next.js, HTML, CSS

Backend: Node.js, Express.js

Databases: SQLITE, PostgreSQL, Prisma ORM

Tools: Docker, Git, Linux

Achievements & Leadership

DSA Lead | GDG - GEC Bilaspur (2025 – Present): Lead DSA sessions and mentor 50+ students in problem solving and algorithmic thinking.

NTPC Technical Competition 2025: Regional Finals, 3rd Place.

Symbiosis Skill Hackathon (SSH 26): Finalist in National level hackathon in Indore.

GDG TechSprint Hackathon 2026: 2nd Runner Up (Team Lead).

IIIT Naya Raipur E-Summit Hackathon 2026: National Finalist (Top 120 teams).

NHIDE National Hackathon 2026: National Finalist (Top 200 teams).
